

We have a 3 year old Shih Tzu that me and my wife rescued from America. He was very aggressive and it was becoming almost impossible to take him outside for a walk. We tried several different dog trainers with various different methods; however, our dog made our lives very stressful. We finally found Marcel and his website and saw that he had previously trained dogs for the military and specialized in problem dogs. I thought this could be something different for our dog and we gave Marcel a call for the Crashkurs. After only 2 hours, our dog behaved like a saint! Marcel's methods are realistic, practical, and very effective. Unlike other dog trainers, we only needed 1 session with Marcel and it was an instant change! It has been 1 month since our session and our dog continues to behave well all thanks to Marcel!!
